- First score, fold and burnish the card base.
- Adhere the front $5 \frac{3}{8} \times 4 \frac{1}{8}$ " layer to the front of the card.
- Next you are going to cut the mat layer ($4 \frac{3}{4}$ " x 4") for the DSP. Template is below.

Cut the first section @ $3 \times \frac{3}{4}$ " and cut $\frac{1}{2}$ " off the top and $\frac{1}{2}$ " off the bottom. Next, cut the second section $3 \frac{1}{2} \times 1$ and cut off $\frac{1}{4}$ " off the top and off the bottom. Continue across the mat layer for the DSP.

- Grab your 6×6 " dsp. This has to be cut down. Be very careful of how it is cut especially if the dsp is scenic. Holding the dsp with the design in the correct position, you need to cut across the bottom @ $2 \frac{1}{8}$ ". Reserve the $6 \times 2 \frac{1}{8}$ " piece for the flap of your envelope. Now your dsp should measure $3 \frac{7}{8} \times 6$.
- Follow the template below starting on the left of the paper.
